BEM HISTORY

In 1966, the missionary Dutch couple, Nicolaas and Trijnie van Eijk landed in Sao Paulo from Stadskanaal, Holland. After spending a year working in a juvenile institution run by Dutch people in São José do Rio Pardo (São Paulo), the couple moved to small Sabinópolis, in the interior of Minas Gerais, in 1967.

In 1968, the couple founded The Evangelical Pentecostal Missionary Church (IEMP) from the contact with the numerous social problems present in the community and the perception that the Gospel needed to be materialized through the loving care of these social needs. The couple begins to care for children and their families in their own home. The biblical text of 1 John 3:17 troubles them and their Dutch compatriots about the social situation of this community, as there were a large number of poorly structured families and undernourished children who wandered begging through the streets of the village.

Thus, in 1973, the Bem Estar do Menor crèche was founded as a body of legal personality and diaconal arm of the IEMP Church, to meet the social demands of these children and their families. Since then, a number of social projects and actions have been created and developed over the years. It has contributed significantly to meeting the social needs, transformation and social development of the communities where BEM has expanded its approach.

If anyone has the world's goods and sees his brother in need, yet closes his heart against him, how does God's love abide in him

1 John 3:17

MESSAGE OF THE EXECUTIVE DIRECTORY

Life is made up of challenges, of surprises, of insistent stubbornness in walking towards what we believe and desire (conscious or not). And there are not a few difficulties in our ways. But the conquest brings with it that feeling of having been worthwhile, of growth, learning, friendships on the way, strengthening ties and joy of enjoying the laurels of victory. This is how we feel when we present the 2017 BEM Marketing Report. While we enjoy the prize, we see before us the greatness of the challenges of the journey for 2018 and following years: many needs, many changes (including legislation), many impediments - be they financial, resources human rights, structure, legislation, partnerships, etc. However, there is a challenge that must move us beyond these difficulties: Relevance.

Relevant is an adjective that expresses value, what is important, essential, that transform realities, deserves prominence and must be present to make sense of what has been

done. It denotes something valuable, rare, precious and worthy of attention. We want as a non-profit and Christian confession Association, which has been working for over 50 years (officially since 1973), to highlight the relevance of our work - in other words, it is not merely about working, giving jobs, attending children and their families (it is also important), but we want to be socially relevant where we are: in the lives of children, families and communities.

To be relevant, it is necessary to prospect on two fronts: the first concerns the one who guides us - without the guidance of God and his good hand blessing the work that is performed in obedience to his instruction, we will lose the referential; the second to those we serve and we need to know them, walk with them, live their experiences as if they were ours, feel their struggles with them and identify with them. Thus we will be able to act with great relevance in 2018 and in the years to come.

What a wonderful challenge. May our motivations lead us on the path of serving, supporting, investing in life, and transforming realities-to be positively relevant in this generation. Let's go together?

Daniel Ferdinand van Eijk

TESTEMONIES

COOPERATORS

“

I have a beautiful family and I learned at BEM what a real family is, so I think I can share a little of what I learned. I received values that changed my life, my home. I like to be with people and help a little. At BEM, I do that.

“

I like working with people which is good to have around. Doing what I like is what motivates me and help children in their difficulties is very rewarding

“

What motivates me to work at BEM is that it is an organization that works with Christian values and prizes, above all, the transformation of the human being, aiming at its integrally

PEOPLE THAT HAVE BEEN THROUGH OUR PROJECTS

Without the blessing of God and without the arrival of the van Eijk family in Sabinópolis, I'm sure some of my brothers and I would not be alive today. Through BEM, my biological family (known as 'The Parakeets') we are well today. The family van Eijk took me out of a terrible situation after my mother passed away. My brothers and I stayed at BEM Creche. I live and work in Holland today. I was created in a Dutch missionary family. Beginning of my life only worked and for that, I love van Eijk family. Always grateful

Jairo Alves de Moura

I am very grateful for all the care, all love, and affection I received in 10 years at the Daycare, place where I learned to live with different people and to respect others, all the values and the character I have today, I owe my mother and daycare! I have no words to describe such gratitude.

Anne Letícia Carvalho Moura

I knew about the Word of God (myself and my family) and I was able to learn a profession. Everything that I am today I thank God and the BEM PROJECTS (Welfare of the child)

Elizeu Aleluia de Moura

My parents got to know the missionary work of evangelism initiated by the Dutch couple Nicolaas and Trejnie through services at the former José Barroso Neto school. They became Christians and soon began to serve the Lord in the church. As we were a large family (five children) and only my father worked, we were benefited by the projects that the mission offered. Pastor Nicolaas invited me to go to study in the city of Sabinópolis. I accepted the invitation and, assisted by the mission, I took the teaching course, I graduated as a teacher and the following month I began to work in the Day care, where I was able to begin and finish my professional life, coming with great pride to the retirement by time of service! The IEMP / BEM mission completely changed my life and my family. I am very grateful to God for this couple that He sent to Brazil to show us the way to Salvation and to bless us also socially!
